EDUCATION

Bachelor of Computer Applications (BCA)
LNT College Muzaffarpur
2022 - 2025

Senior Secondary (XII), Science
HOLLY CROSS PUBLIC SCHOOL
(CBSE board)
Year of completion: 2019
Percentage: 72.00%

PROJECTS

Amazon First Page UI/UX design

May 2024 - Jul 2024

https://github.com/aadityaexe/AMAZON-CLONE-HTML-CSS-

Amazon Clone: Developed a responsive web application replicating Amazon's interface using HTML and CSS. Key features include a navbar with a logo, search bar, location selector, and cart. The homepage showcases product categories in a grid layout, each with an image and link. A hero section promotes localized content with a link to Amazon India. The footer provides organized links to various services. Integrated FontAwesome icons for visual appeal and ensured cross-browser compatibility. This project demonstrates proficiency in front-end development and UI/UX design, successfully creating a realistic e-commerce platform.

Rock-Paper-Scissors Game

Jul 2024 - Jul 2024

https://github.com/aadityaexe/rock-paper-scissors-game

Built an interactive Rock-Paper-Scissors game using JavaScript, enhancing my understanding of game logic and event handling. The game features a user-friendly interface and provides instant feedback on the player's moves. This project demonstrates my ability to write clean, modular code and implement fundamental JavaScript concepts such as functions, conditionals, and DOM manipulation.

Cryptocurrency Tracker

May 2024 - May 2024

https://github.com/aadityaexe/cryptocurrency

Developed a comprehensive Cryptocurrency Tracker using HTML, CSS, and JavaScript, enabling users to

monitor real-time cryptocurrency prices and trends. Integrated API calls to fetch live data and displayed it in an intuitive and visually appealing interface. This project showcases my ability to handle asynchronous operations, manipulate DOM elements dynamically, and implement responsive design principles for optimal user experience across devices.
